PROFESSIONAL EXPERIENCES

Forensic and Clinical PsychExperts, LLC. March 2025
Jupiter, FL
Forensic Psychologist (*40 Hours/ week*)

Population Served: Court-ordered psychological services are provided to individuals across domains and with different needs. Populations have included those with severe mental illness, individuals in correctional settings, and individuals with clinical and general evaluations.

Responsibilities: Assigned to evaluate individuals in a wide array of psychological needs including but not limited to, VA disability evaluations, competency evaluations, and guardianship evaluations. Write reports for the court in regards to outcomes, findings, and recommendations. Provide testimony in regards to evaluations and assessments conducted.

Treasure Coast Forensic Treatment Center September 2023
-Indiantown, Florida March 2025
Post-Doctoral Psychology Resident and Forensic Psychologist (*40 hours/ week*)

Population Served: Inpatient psychiatric facility offering adult forensic services. Services include risk assessment and reduction, competency evaluation and restoration programs, as well as integrated treatment for co-occurring psychiatric and substance disorders, court reports, and

court testimony. Individuals committed to the hospital fall into one of three categories; incompetent to proceed, not guilty by reason of insanity, or those under the Rubio Act.

Responsibilities: Assigned the role of forensic psychologist to three units, totaling 42 individuals, with responsibilities of monthly competency evaluations, weekly and monthly hospital notes, and annual psychological evaluations. I was responsible for completing court reports, with regards to hospital updates, step-down recommendations, competency recommendations, and/or risk assessment reports. I conducted psychological assessments for individuals presenting with a range of difficulties including, but not limited to, cognitive impairments, intellectual disabilities, as well as for those with concern of malingering/ feigning of symptoms. I provided group therapy for advanced and enhanced competency restoration. I was also provided the opportunity to conduct psychological training for the new employee orientation, as well as supervision for practicum students

CLINICAL PRACTICUM EXPERIENCE

Georgia Regional Hospital – Atlanta

Atlanta, Georgia

Forensic Psychology Intern (40-45 hours/week)

Supervisor: Dr. Brittany Penson, Psy.D. and Dr. Stephanie Davis, Psy.D.

August 2022 -

August 2023

Population Served: Inpatient psychiatric facility, housing 334 beds offering adult mental health and forensic services. The forensic services program includes three medium secure inpatient units, totaling 124 beds. Each unit houses adults, with a variety of psychiatric diagnoses who are in need of both competency evaluation and competency restoration or have been adjudicated incompetent to stand trial or not guilty by reason of insanity. Individuals who are civilly committed to the hospital engage in treatment, working towards the development of skills necessary for a court-approved conditional release or full release into the community.

Responsibilities: Conducted competency to stand trial and criminal responsibility evaluations and report writing. Conducted psychological and neuropsychological assessments for individuals presenting with a range of difficulties, including but not limited to TBI's, catatonia, intellectual disabilities, cognitive impairments, and psychosis. Additionally, I conducted and wrote reports for risk assessments, annual psychological evaluations, and updated civil commitment letters. Provided group therapy for competency restoration, community reintegration, and Michael's game, a delusional insight-based group. Additionally, I provided individual therapy to individuals for a range of referrals, including competency restoration, memory impairment, psychosis, and overall mental health. I conducted initial, 30, and 90-day competency to stand trial evaluations and report writing. I conducted competency restoration groups and individual therapy. Additionally, I completed psychological and neuropsychological assessments to individuals for a range of referrals. I completed all report writing for said assessments, as well as initial and follow up civil commitment letters.

Winter Haven Hospital – Neuropsychology Rehabilitation

Winter Haven, Florida

Practicum Clinician (18-20 hours/week)

Supervisor: Jeffery Reddout, Ph.D.

Patients served in this practicum are primarily older adults (65 years and older), with memory impairments or concerns. Telehealth services were provided for therapeutic interventions when needed.

Responsibilities: Conducted neuropsychological intakes, assessments, and feedback sessions for individuals presenting with memory and neurological concerns, including but not limited to mild cognitive impairments, brain injuries, dementia, and Alzheimer's. Additionally, conducted spinal cord stimulator assessments for individuals in need of pain relief and spinal cord stimulation surgery. Completed neuropsychological and spinal cord evaluation report writing. Provided patients with suggestions and methods of moving forward with diagnosis and interventions. Consulted with other medical and rehabilitative providers and team members. Provided individual therapy for individuals presenting with traumatic brain injury difficulties. Implementing and documenting interventions and patient progress. Write

Brevard Health Alliance

Melbourne, Florida

Practicum Clinician and Peer-Supervisor (18-20 hours/week)

Supervisor: Chad Breznay, Psy.D.

January 2020 -

December 2021

Population Served: Primary care clinical patients with problems related to behavioral health issues, substance abuse, chronic illnesses, and/or treatment adherence difficulties. Patients served in this practicum are primarily uninsured and homeless adults ages 18 and older. Transitioned to telehealth services delivery during pandemic in Spring and Summer 2020.

Responsibilities: Conducted same-day brief screenings and assessments for mental and behavioral health problems. Consulted with medical providers and other treatment team members and provided warm handoff patient consultations. Attended treatment team and clinic staff meetings, as well as required training. Developed and documented integrated treatment plans in conjunction with patients and other team members. Implemented and documented behavioral health interventions and patient progress. Followed-up with patients as needed and referred to appropriate internal and community resources. Conducted sessions with patients through Telehealth, phone visits, translators, and in-person.

Brevard County Jail Complex- Mental Health Unit

Cocoa, Florida

Practicum Clinician (15 hours/week)

Supervisor: Alexandra Cedeno, M.S., MBA, LMHC and Patrick Aragon, Psy.D.

January 2020 -

May 2020

Population Served: County jail that houses male, female, and juvenile inmates. The population consisted of a diversity of inmates including race, age, gender, and sexual orientation. Detainees

include criminally charged individuals who are awaiting trial, awaiting transfer to another jurisdiction, convicted and awaiting transfer to the Department of Corrections, or those convicted and serving sentences generally less than one calendar year. The Mental Health Unit provides services to detainees with chronic, acute, and situational psychiatric disturbances. The Mental Health Unit houses many of the seriously mentally ill inmates and those at high risk for suicidal behaviors.

Responsibilities: Provided psychological assessments and individual therapy to male and female inmates within the mental health unit. Additionally, I provided psychological assessments, crisis interventions, and therapeutic interventions to inmates housed in the general adult male population, juvenile population, maximum security, the women's annex, and the medical unit, which houses inmates with acute and chronic physical ailments. Involved in initiation and discontinuation of suicide precaution protocols and direct watch orders and initiation of Mental Health Holds that resulted in involuntary hospitalizations.
